LATAM Combustible Dust Technology & Solutions Conference 2025

9:45 AM:

Chris Cloney

Event Introduction

Chris Cloney, PhD., Managing Director - Dust Safety Science

10:00 - 10:30 AM:

Luís Eduardo Zarpellon

Legislation and Safety Standards for Combustible Dust Explosions in Latin America

Luís Eduardo Zarpellon Corpo de Bombeiros Militar do Paraná Major

10:45 - 11:15 AM:

Robson Krolikowski

Combustible Dust Process Safety: Lessons from Mature Markets and the Path Forward for Brazil

Robson Krolikowski (PCRS)

Lunch Break

12:00 - 12:30 PM:

Laerte Carlos Kuhn

Innovative Strategies for Combustible Dust Control: Challenges, Solutions, and Practical Applications

Laerte Carlos Kuhn Brasmo Sales Manager

12:45 - 1:15 PM:

Fernando Nocera Domingues

Solutions for Exhaust and Filtration of Combustible Dusts

Fernando Nocera Domingues Nederman do Brasil Sales Coordinator

1:30 - 2:00 PM:

Bernardo Sanson

Combustible Dust Protection: Low-Maintenance, Passive Solutions

Bernardo Sanson CV Technology Sales Engineering Manager

All Times Listed in Eastern Time Zone (GMT+5).
All presentations available with English, Portuguese and Spanish subtitles.

SpaceVac: ATEX/C2D2 Reach Cleaning Systems & Industrial Vacuums

Fully conductive ATEX/C2D2 reach cleaning systems for the fast removal of combustible waste.

- > Reduce risk of explosion
- > Clean faster
- > Save money
- > Increase productivity
- > Reduce downtime
- > Improve Indoor Air Quality

Trusted by clients including:

Higher. Safer. Faster.

ATEX Pro and Mercury ACD Vacuum in operation

Global Leader in Fire & Explosion Protection

Soluções para exaustão e filtragem de poeiras combustíveis

Solutions for exhaust and filtration of combustible dusts

A Nederman é líder mundial no setor de tecnologia ambiental. Podemos ajudá-lo a criar um ambiente de trabalho seguro, sustentável e em conformidade com as diretivas ATEX e NFPA. Fale com nossos especialistas!

Nederman is a global leader in environmental technology. We can help you to create a safe, sustainable and compliant work environment, meeting both ATEX and NFPA standards. Talk to our experts!

Prime Process Safety Center

Prime your safety

Testing Services

- Go/No Go Testing
- Combustible Dust Testing
- **KST, MIE, MEC, MIT, LIT, LOC**
- Electrostatic Discharge Testing
- Volume Resistivity, Surface
- Resistivity, Liquid Conductivity
- Oxidizing Solids-UN Test N.1
- Self-Heating Solids-UN Test N.4
- Flammability Testing (LFL & UFL)
- Flash Point Testing
- Auto-Ignition Temperature testing

Consulting services

- Dust Hazard Analysis (DHA)
- Electrostatic Hazard Assessment
- Hazardous Area Classification
- Process Hazard Analysis (PHA)
- HAZOP
- LOPA

Training

- Dust Hazard Analysis (DHA)
- PHA
- Flammable & Combustible Liquid Hazard
- HAZOP

Reactive Consulting/ Testing

- Chemical Reaction Hazard Assessment
- DIERS Technology for Two-Phase Relief system
- DSC, DTA, TGA, ARC, VSP II, Bomb Calorimetry & Reaction Calorimetry

12925 Cypress N Houston Rd. Cypress, TX, 77429
 Ph: (346) 462-3838 Ph: (346) 462-3816

PROTECTION SYSTEMS FROM firefly

INTELLIGENT FIRE PREVENTION AND PROTECTION SYSTEMS THAT KEEPS YOU IN PRODUCTION

-  PREVENTIVE AND PROTECTIVE SYSTEMS INTEGRATED INTO ONE SOLUTION
-  ALL FIREFLY DETECTORS ARE INSENSITIVE TO DAYLIGHT
-  ROBUST SYSTEMS WITH CERTIFIED TECHNOLOGY
